Bucky is a 5 year old gelding !! He good little pony we mainly just let the boys play with him and lead them around on him ! Our 10 year old can ride him around . I wouldn't turn a young child loose because he still young and needs little more desensitizing. But he will let your child drag him anywhere and love and brush him ! Only reason why we are selling him is my boys have a bigger pony they always ride ! And I feel Bucky needs a little cowboy or cowgirl to love him 24/7.

Here is a pretty registered AQHA mare that is very well bred. Easy keeper. Loads and trailers well. Easy mellow ride and good on the trails. She has had 2 foals about 8 years ago, before they got her. They got her to be a surrogate and then never used her for it. Just a really great all around mare but unfortunately she has navicular disease and has had it for several years. She has her good days and bad days. Could still be a great broodmare or a walk beginner horse when she is feeling good.
