🍁 OTIS 🍁

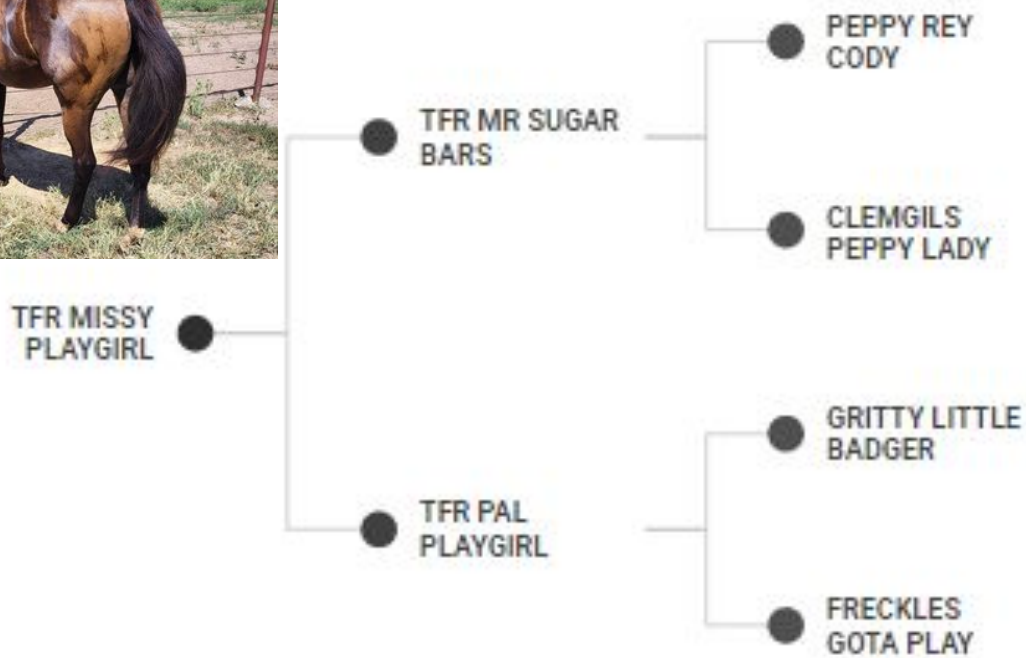

Super cute 4 year old stud Quarter pony (both are descended), he's 13.1 hands tall. He's very sweet and super easy to get along with. He may be all boy, but he doesn't know that! Very gentle riding and very willing to learn. He's more woah than go, but is willing to walk, trot, and lope. You can catch him up anytime and do anything you want to with him. He has good ground manners, stands tied, picks up his feet, loads and hauls, and gets along well with all the other horses.

Would make a kid a nice project to make their own and bond with. No big blemish's other than a small cut on his upper lip, got it caught on a fence, he's sound. Doesn't know a mean hand, has been an in your pocket sweetheart his whole life.
